

An Event Series | Global Employee Mobility and Taxation - Taxation challenges for employees of internationally operating organisations

We are pleased to announce a three-part event series kindly sponsored by **Blick Rothenberg** and **Tax Expert International AG** focussed on Global Employee Mobility and Taxation.

Mark your diary for the morning of 9th March and bring your appetite as our hosts will be providing breakfast.

Welcomed by Alexander Altmann, Director Blick Rothenberg, and Richard Wuermli, Managing Partner Tax Expert, the speakers will examine a wide range of tax implications that can arise when employees of multinationals move across borders. Specific topics that may be relevant to specific categories of employees will be a specific focus on domestic rules and the treaty which is in place between Switzerland and the United Kingdom.

The BSCC London Chapter welcomes you to join this **complimentary breakfast** to learn about the Swiss tax system.
